PROFESSIONAL SUMMARY

Cloud security-focused cybersecurity professional combining hands-on AWS security implementation with a 10-year background in financial risk and regulatory compliance. Experienced designing and hardening AWS environments — least-privilege IAM, network segmentation, encryption, and centralized logging/monitoring — with a strategic preservation mindset carried over from assessing financial and credit risk under regulatory scrutiny. AWS Certified Cloud Practitioner, working toward specialist cloud security and GRC roles, with practical SOC/SIEM experience from a self-built home lab.

TECHNICAL SKILLS

Cloud Security (AWS): IAM (least-privilege), VPC / Security Groups / NACLs, CloudWatch, CloudTrail, WAF (OWASP Top 10 mapping), S3 Encryption & Versioning, RDS encryption & backups, AWS Well-Architected Framework

Identity, Access & Cryptography: AAA, MFA, SSO, OAuth, IAM, PKI, Symmetric/Asymmetric Encryption (AES-256, SHA-256)

Security Operations & Monitoring: SIEM/SOAR (Splunk, Wazuh, Security Onion), IDS/IPS (Suricata), Packet Capture & Traffic Analysis (Wireshark, tcpdump), Log Analysis (Windows Event Logs, Linux syslog/auth.log), Alert Triage

Incident Response & Threats: NIST IR Lifecycle, CSIRT Roles, Vulnerability & Threat Management (CVE, CVSS, Zero-Day), Defense-in-Depth, OWASP Top 10, Social Engineering (Phishing/Vishing/Smishing), Threat Intelligence

GRC & Risk: Regulatory Compliance, Risk Management, Fraud Detection Systems

Digital Forensics: Chain of Custody, Data Acquisition, Recovery & Prevention

Scripting & Development: Linux/Windows Administration, Python, Bash/PowerShell, SQL, Git/GitHub, Flask, Django, MySQL/PostgreSQL, HTML/CSS, JavaScript

Home Lab: Security Onion & Wazuh SIEM deployment, Metasploitable (vulnerable VM), self-generated attack detection

Tools: VS Code, Jira, Trello, Asana, Slack

CLOUD SECURITY PROJECTS

Cloud Migration & Security Hardening — Café Akhu

- Migrated on-premises infrastructure to AWS, provisioning core services with least-privilege IAM, custom Security Groups, NACLs, and S3 versioning and encryption to reduce attack surface.
- Established end-to-end monitoring and audit trails using CloudWatch and CloudTrail, improving detection visibility and incident traceability.

E-Commerce Cloud Architecture — Secure Multi-Tier Design

- Designed a secure, highly available AWS architecture with VPC subnet segmentation, AWS WAF mapped to OWASP Top 10 threats, SSL/TLS, and encrypted RDS with automated backups.
- Documented trust boundaries, data flows, and disaster recovery strategy in Draw.io, aligned to the AWS Well-Architected Framework.

VPC Quiz Bot — Serverless AWS Chatbot (Lex V2 + Lambda + S3)

- Configured scoped IAM permissions for Lambda execution roles and debugged intent-handling logic, reinforcing least-privilege access design in a live serverless environment.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- AWS Certified Cloud Practitioner (CLF-C02), AWS — May 2026
- Google Cybersecurity Professional Certificate, Google & Coursera — Aug 2026
- AWS AI Practitioner Learning Plan, Praesignis — Dec 2025
- AWS Cloud Engineering Bootcamp, CSN CloudSec Network — Sep 2025
- Full-Stack Developer, FNB APP Academy — Jul 2025
- Microsoft AI Fluency, NetCampus & Microsoft — Jun 2025
- Cybersecurity Workshop, NetCampus & Gauteng Department — May 2025

PROFESSIONAL EXPERIENCE

Wealth Planner

Jun 2022 – Jan 2023

EQ-Fin, Liberty Affiliate — Bryanston

- Served as Financial Advisor/Wealth Planner, developing personalized financial and investment strategies grounded in client risk profiling and regulatory suitability requirements, to help clients meet long-term financial goals.
- Delivered client-facing consultations, translating complex risk, regulatory, and technical detail into clear guidance for non-technical stakeholders, to support informed decision-making.
- Developed tailored financial strategies by analytically assessing individual client risk profiles, ensuring recommendations aligned with each client's risk tolerance and goals.

Rental Service & Credit Vetting Administrator

Jun 2017 – Feb 2022

Go Rentals Pty Ltd — Sandton

- Assessed credit risk and verified applicant information against regulatory and compliance requirements, applying a methodology directly transferable to security risk assessment and control validation.
- Managed contracts, client accounts, and compliance documentation across government and commercial portfolios, maintaining accuracy and audit-readiness under regulatory scrutiny.
- Investigated insurance claims and discrepancies, applying structured, evidence-based reasoning comparable to incident triage and root-cause analysis.

Portfolio Manager

May 2013 – May 2017

Lumic Property Consultants — Suideroord

- Managed 28 sectional title scheme portfolios, overseeing financial reporting, compliance, and stakeholder communication, with a strong emphasis on documentation discipline to maintain audit-readiness across all portfolios.
- Reconciled and reported on levy accounts and body corporate finances across the portfolio, ensuring accurate financial records and timely resolution of discrepancies flagged during audits.
- Liaised with trustees, managing agents, and service providers to resolve compliance issues, strengthening a track record of clear, accountable communication under regulatory oversight.

EDUCATION

- BA Degree, Interior Design — Design School of Southern Africa — Dec 2012
- Diploma in Interior Decorating — Design School of Southern Africa — Dec 2007
- National Senior Certificate — Sacred Heart College — Dec 2006
